SUMMARY

Procurement and supply chain leader with 16+ years, \$18M+ in verified savings and \$400M+ in annual spend influenced across energy, utilities, oil & gas and telecom. Trusted advisor to CPO and VP-level stakeholders on capital projects, category strategy and procurement transformation. Proven across global consulting advisory (Wood Mackenzie, Accenture) and in-house category ownership (BT Group, Jindal Drilling, Quippo); MIT Supply Chain Analytics certified.

CAREER HIGHLIGHTS

- **\$2.2B upstream capital project benchmarked** for a global E&P operator — analysis drove a pre-FEED budget revision and capital reallocation, earning the Wood Mackenzie Q3 Innovation Award.
- **\$18M+ in verified savings delivered** — ~\$10M upstream CapEx sourcing, £2M+ telecom engineering categories, ~\$6M utility contractor spend, plus rate-contract savings across drilling operations.
- **Sourcing frameworks adopted as client standard practice** for emerging-technology and utility categories, influencing procurement strategies across global energy operators.
- **Procurement transformation led** across a £200M+ BT Group engineering services portfolio — standardising governance, sourcing processes and spend visibility across Finance, Engineering and Operations.

PROFESSIONAL EXPERIENCE

Wood Mackenzie · Gurugram, India

Feb 2025 – May 2026

Principal Consultant — Supply Chain Consulting

- **Benchmarked a \$2.2B upstream capital project for a global oil & gas E&P operator** — D&C, Facilities and Pipelines analysis drove a pre-FEED budget revision; findings presented to VP-level leadership.
- **Identified ~\$6M in cost optimisation across \$233M of contractor spend** — rate-variance decomposition across 6 contractors reshaped the client's RFP strategy and negotiation mandate for the next contracting cycle.
- **Disproved a claimed 23.8% supplier price escalation via category intelligence** on \$75M+ of transmission-structures spend — cost models justified only 1.5–5.6%, securing a clear mandate for competitive rebid.
- **Built a greenfield E-STATCOM sourcing strategy across a ~\$1B market** — adopted by client leadership as the standard approach for new technology categories supporting 20GW+ data-centre growth.
- **Surfaced a >20% target-vs-actual savings gap for a utility's Energy Waste Reduction programme** — an Excel–Alteryx KPI workflow triggered the client's corrective-action plan with six months to deadline.
- **Benchmarked supply-chain organisations** across 10 peer utilities using spend-per-FTE and spend-per-RFP quartile analysis — operating-model recommendations adopted as directional strategy; mentored 5 analysts.

BT Group (British Telecom) · Gurugram, India

Mar 2023 – Feb 2025

Category Manager — Procurement

- **Delivered £2M+ in contract savings on civil-infrastructure renewals** within a £200M+ engineering services portfolio — findings presented to senior procurement leadership to anchor commercial negotiations.
- **Owned a £100M+ civil-infrastructure category end-to-end** — led a team of 5+ buyers across techno-commercial evaluations, competitive sourcing events and contract renewals.
- **Led S2P digital transformation** across the £200M+ portfolio — standardised procurement governance and workflows, improving spend visibility and compliance across Finance, Engineering and Operations.

- **Applied AI-enabled spend analytics** to benchmark incumbent pricing across complex categories, directly anchoring commercial negotiations and sharpening sourcing positions.
