

MOHAN KHOLIYA

Procurement & Supply Chain Advisory | Procurement Transformation & Operating Model Design
Strategic Sourcing · Category Strategy · Contracting & Governance · Spend Analytics · Operator-Side Practitioner
+91 9990433916 | mohan.kholiya@gmail.com | Gurugram, India | linkedin.com/in/mohankholiya | Portfolio: <https://mohankholiya.co.in>

EXECUTIVE SUMMARY

Procurement and supply chain advisor with 16+ years across direct and indirect categories, capital projects and services spend. Fourteen of those years were spent inside operating businesses — running end-to-end sourcing and category management, owning budgets to £100M, and leading buyer, analyst and cross-functional teams of up to 10+ — alongside consulting delivery at Wood Mackenzie and Accenture spanning cost transformation, contracting strategy, supplier governance, operating model design and category intelligence. Has influenced \$400M+ of spend and delivered \$12M+ in savings. Sector experience covers energy, utilities, telecommunications, infrastructure and industrial services. MIT Supply Chain Analytics certified.

CAREER HIGHLIGHTS

- **Cost transformation:** \$12M+ in delivered savings across \$400M+ of influenced spend, including ~\$4M on a \$200M+ capital portfolio (~2%) and £2M+ on a £100M services renewal (~2%), both achieved without service or schedule disruption.
- **Commercial assurance:** quantified \$4.9M–\$6M of annual above-market contractor billing on \$233M of services spend, built bottom-up from 565,000+ transactions across 482 rate codes and six suppliers; governance framework and contracting strategy adopted into the client's RFP design.
- **Operating model & organisation design:** benchmarked function-level spend, headcount and span of control against a peer set, clustering roles by capability rather than title to make cross-company comparison valid — reframing a cost-reduction mandate into a targeted reallocation plan.
- **Capital cost benchmarking:** benchmarked a \$2.2B capital programme against a purpose-built 27-project peer set, constructing and normalising the peer set for time, location and specification. Q3 Innovation Award.
- **Supplier risk & resilience** built a 50-supplier ecosystem with 10 OEM rate contracts from scratch across five countries, sustaining 100% on-time material availability and zero supply-driven operational downtime across a ~\$100M annual portfolio.

CORE SKILLS

Consulting Craft: Problem Structuring & Hypothesis Design · Peer-Set Construction & Normalisation · Top-Down / Bottom-Up Triangulation · Assumption Logging & Defensibility · Executive Readout & Storylining · Stakeholder Workshops · Analyst Coaching

Sourcing & Category: Category Strategy & Intelligence · Strategic Sourcing (Direct & Indirect) · RFI / RFQ / RFP Design · Technical-Commercial Bid Evaluation · Demand Aggregation · Should-Cost & TCO Modelling · Cost Benchmarking

Commercial & Governance: Contract Negotiation · Contracting Strategy & Rate-Book Design · Supplier Performance (KPI/SLA) · Supplier Risk, Resilience & Continuity · Rate & Invoice Assurance · Operating Model & Org Design · Source-to-Pay Transformation

Analytics & Tools: Transaction-Level Spend & Rate Analytics · Alteryx · Power BI · Advanced Excel · SAP MM · SAP Ariba · Oracle ERP · AI-Enabled Procurement Tooling · Claude API

PROFESSIONAL EXPERIENCE

Wood Mackenzie | Gurugram, India

Feb 2025 – May 2026

Principal Consultant, Supply Chain Consulting (Energy)

- **Benchmarked a \$2.2B upstream capital project against a purpose-built 27-project peer set** (top-down and bottom-up), isolating rig rate (~41% of drilling cost) as the dominant driver and reframing the client's goal setting to defensible per-item targets. Q3 Innovation Award.
- **Led a pre-RFP opportunity assessment for a major North American utility**, quantifying \$4.9M–\$6M of annual above-market contractor billing on \$233M of spend from 565,000+ transactions; diagnosed a single governance gap repeating across six contractors, adopted into the client's RFP design.
- **Built a greenfield sourcing strategy across a ~\$1B emerging-technology category**, adopted as the client's standard approach for capital equipment supporting 20GW+ data-centre growth.
- **Designed a KPI-driven supplier-performance and governance framework for a regulator-mandated programme**, automating forecast-to-actual reconciliation in Alteryx and surfacing a >20% target gap that anchored a new contractor governance process. Mentored 5 analysts.
- **Led a supply-chain operating-model diagnostic for a regulated utility**, benchmarking function-level spend, headcount and span of control against a peer set and clustering roles by capability rather than title. Reframed a cost-reduction mandate into a targeted reallocation plan, de-risked through a phased regional pilot.

BT Group (British Telecom) | Gurugram, India

Mar 2023 – Feb 2025

Category Manager, Procurement

UK telecommunications group. Category ownership for Openreach, BT Group's national access-network infrastructure division.

- **Owned £100M of annual civil-infrastructure spend with full budget accountability**, leading and developing a team of 5+ buyers across sourcing events, techno-commercial evaluations, contract renewals and supplier governance.

- **Delivered £2M+ in total-cost optimisation** ($\approx 2\%$ of renewal value) on a service-delivery contract renewal. Rebuilt the baseline with a should-cost model, priced the costs the day-rate hides (mobilisation, travel, SLAs, rework), and closed senior-leadership negotiations with zero service disruption.
- Led source-to-pay digital transformation across the portfolio, standardising contracting governance, approval workflows and compliance across Finance, Engineering and Operations, acting as local change champion through rollout.

Accenture Solutions Pvt. Ltd. | Gurugram, India

Oct 2021 – Mar 2023

Senior Analyst & Team Lead, Sourcing & Category Enablement (Client: leading upstream O&G operator, India)

- **Generated ~\$4M in CapEx savings** ($\approx 2\%$ of a \$200M+ capital portfolio) for an Indian upstream E&P operator. Built category and contracting strategies across EPC packages, surface facilities, and drilling & completions, aggregated demand across projects to replace project-by-project tendering, and ran sourcing end-to-end (qualification, RFx, negotiation, award) in SAP Ariba with a cross-functional team of 4.
- **Designed TCO-based bid-evaluation matrices strengthening award decisions on cost**, quality and schedule, then embedded category playbooks and supplier-management routines in-house. Business Partner Employee Award (FY 2022–23).

Jindal Drilling & Industries Ltd. | Gurugram, India

Sep 2017 – Jul 2021

Manager, Procurement

One of India's largest private offshore drilling contractors; jack-up rigs and drilling services for ONGC.

- **Managed a ~\$100M annual procurement and contracting portfolio** across ONGC and OIL India jack-up drilling and MWD contracts, sustaining 100% on-time material availability and zero supply-driven rig downtime.
- **Built a 50-vendor ecosystem with 10 OEM rate contracts from scratch**, leading a 10+ member cross-functional team; sourcing, contract negotiation and supplier audits spanned the Middle East, US, UK, Singapore and China.

Quippo Oil & Gas Infrastructure Ltd. | Gurugram, India

May 2013 – Aug 2017

Assistant Manager, Supply Chain Management

Oil & gas infrastructure and onshore drilling services company.

- **Directed ~\$50M of annual global sourcing for 2,000 HP onshore drilling rigs serving ONGC and OIL India**, leading a 4+ member cross-functional team with zero rig downtime; negotiated a \$30M rig-equipment contract.

Shyama Power India Ltd. | Gurugram, India

Sep 2009 – May 2013

Assistant Manager, Procurement

EPC contractor delivering turnkey power transmission and distribution infrastructure projects.

- **Led EPC and turnkey construction procurement for RGGVY national power-grid projects**, covering BOQs, technical approvals, contractor selection and quality compliance, supporting on-time turnkey completion.

AI-ENABLED PROCUREMENT TOOLS (INDEPENDENT BUILDS)

- **Should-cost modelling workspace (live)**: cost-driver trees linked to commodity indices, rule-based gap analysis and Excel export, with LLM assistance on the Claude API.
- **Procurement-intelligence dashboard and category-strategy generator**: LLM-assisted spend analysis, supplier-risk monitoring and contract summarisation. Specified and built independently using Claude Code.

AWARDS & RECOGNITION

- Q3 Innovation Award, Wood Mackenzie (2025): \$2.2B capital benchmarking across a multi-geography team.
- Business Partner Employee Award, leading upstream O&G operator (FY 2022–23): high-value contract turnaround.
- Distinguished Contributor Award, Quippo Oil & Gas (2015–16): zero rig-downtime record.

EDUCATION & CERTIFICATIONS

MBA, Power Management, University of Petroleum & Energy Studies (UPES), Dehradun, 2009

B.Sc., Physics, Chemistry & Mathematics, Kumaun University, Nainital, 2006

Certifications: MIT Supply Chain Analytics (SC0x, 2026) & Fundamentals (SC1x, 2025) · Supply Chain Management, MSME (2013)

In progress: Microsoft Azure AI Fundamentals (AI-900) · Anthropic Academy (Claude API & AI Fluency)
